- Ensure best value for money (or lowest price) and avoid conflict of interests
- Subcontracting between beneficiaries is not allowed. Subcontracting to affiliates is generally not allowed either
- Estimated costs and tasks must be identified in the budget and in Annex 1
- Simplified approval procedure allowed (i.e. beneficiary flags the subcontracting at reporting stage) However, beneficiary bears the risk of rejection

*E.g.: Testing described in Annex 1 as action task*

- The beneficiaries are responsible for the proper implementation of the subcontracted action tasks by the subcontractors (*proper quality, timely delivery, etc*).

There will be three main ‘corporate’ Model Grant Agreements (MGAs), on which Horizon Europe MGAs will be built:

1. A ‘corporate general MGA’, for grants which take the form of a budget-based mixed actual cost grant (i.e. a grant based on actual costs incurred, but which may also include other simplified forms of funding, such as unit costs or contributions, flat-rate costs or contributions, lump sum costs or contributions)

2. A ‘corporate unit-based MGA’, for grants which take the form of one or several possible types of unit contributions for covering the action implementation

3. A ‘corporate lump sum-based MGA’, for grants which take the form of one single lump sum contribution, broken down per work package and per beneficiary, for covering the action implementation

Affiliated entities

Article 187 (1)(b) of the EU Financial Regulation:

Entities ‘that have a link with the beneficiary, in particular a legal or capital link, which is neither limited to the action nor established for the sole purpose of its implementation’.

Affiliated entities in Horizon Europe = Linked third parties in Horizon 2020:

(alignment of labelling/definition in the corporate context)

- Must be identified in GA in Article 8, their tasks must be mentioned in Annex 1 and their budget in Annex 2
- Same cost eligibility criteria than for beneficiaries

⚠️ They are therefore de facto treated like beneficiaries (have their own financial statement, must provide their own CFS, must contribute to the technical report, must submit deliverables, etc).

- Granting authority may request them to accept joint and several liability for their EU contribution
