THE ENGLISH LANGUAGE TRANSLATION DOES NOT HAVE LEGAL VALUE IN ITSELF, AND THUS DOES NOT SUPERSEDE THE ITALIAN VERSION OF THE CALL ANNOUNCEMENT (BANDO).

SELECTION PROCEDURE FOR N ° 1 (one) FELLOWSHIP (Assegno di Ricerca) to participate in the activities of the research program "Norms@Risk: Dynamics of Social Norms Under Collective Risk", Codice FIS00002751 - CUP B53C23005020001".

Type of Grant **C) SENIOR "Assegno di Ricerca Senior"**

THE DIRECTOR**ANNOUNCES****Art. 1
Research Project**

There will be a public selection procedure, based on qualifications and an interview, for the assignment of n. **1 (one)** - "**Type of Grant:** " Senior" (*Assegno di Ricerca Senior*) for conducting research related to the Scientific Area "**Cognitive Science**" at the Institute of Cognitive Sciences and Technologies, CNR – Roma, in the scope of the research program "**Norms@Risk**", in the following topic: "social norms and cooperation in collective risk dilemmas", under the scientific responsibility of Dr. Giulia Missikoff Andrighetto

Research program:

Today it is critical to develop innovative solutions to address social and environmental problems such as climate change, natural resource exploitation, and pandemics. These situations pose collective action problems: people benefit when the public good is provided but no one has an incentive to pay the cost of creating and maintaining it. The project hypothesizes that social norms can play a crucial role in solving these challenges. Previous studies have looked at norms in stable contexts. Many contemporary challenges, however, are constantly changing. The project has the following objectives: 1) to understand how social norms emerge, spread, and change in situations of collective crisis; and 2) to understand how social norms can be strengthened or changed through interventions.

The researcher will be responsible for designing and conducting behavioral studies (in the lab/end or in the field) to examine when social norms are, and when instead they are not, effective solutions to collective action problems under risk and test interventions for promoting cooperation in these situations.

Art. 2**Duration and amount of the Research Grant**

The research grant will run for **24 months** (twenty-four) and may be subject to extension or renewal in compliance with the legislation in force at the time.

The overall duration of the relationships established with the holder of the grant and of the fixed-term subordinate employment contracts referred to in the art. 24 of Law 240/2010, also with different universities, whether state, non-state or telematic, as well as with the bodies referred to in the art. 22, paragraph 1, of Law 240/2010, cannot in any case exceed 12 years even if not continuous, without prejudice to periods spent on leave for maternity or health reasons according to current legislation as well as periods completed prior to entry into force of Law 240/2010.

Any postponements of the start date of the activity foreseen within the grant for carrying out research activities, or any interruptions to the activity itself, will be permitted in the event of maternity or illness lasting more than thirty days. The interruption of the activity foreseen in the awarding of the research grant which is justified in accordance with the above provisions, entails the suspension of the disbursement of the grant amount for the period in which the interruption itself occurs, except as provided by the art. 13 of the specifications or other specific regulations on the matter. The final expiry date of the grant for carrying out research activities is postponed by a period of time equal to the duration of the interruption.

The amount of the research grant, paid in **24 months (twenty-four)** monthly instalments is set at **EUR 52.000** net of expenses in charge of CNR.

The amount of the grant may be derogated for the type of research grants and for grants activated on research or research training programmes, financed or co-financed by national and international bodies, whose specific regulations provide for the determination of the amount to be paid.

The amount does not include any financial compensation for missions in Italy or abroad that may be necessary to carry out the activities connected to the research grant. The mission compensation is determined in the amount corresponding to that payable to CNR employees classified at professional level III.

The grant recipient is covered by an insurance cumulative policy underwritten by the CNR.

The selected candidate will carry out her/his research activities in an autonomous manner, within the limits of the program prepared by the head of the research unit, without predetermined working hours.
